Gainesville, FL 32606

Average Billing

An average payment
plan to make
budgeting easier.

Clay Electric Cooperative, Inc.

A Touchstone Energy® Cooperative 

The Average Billing Program

The Average Billing plan is a special averaged payment plan which provides participating members with a more predictable bill that fluctuates less throughout the seasons. By knowing the approximate amount of your electric bill each month, budgeting becomes easier.

To qualify for the plan a member must have a Clay Electric billing history in good standing under his or her name at the current residence for at least 12 months. Average Billing plan participants will have their meters read monthly and receive monthly bills; however, the amount billed will be based on a 12-month average, including the current month, plus or minus a small adjustment on the remaining balance. Billing by this formula does not reduce your total cost for electricity, but rather evens out the wide fluctuations caused by higher energy use in the summer and winter.

Participation in the Average Billing plan may be discontinued at any time by the member and may be discontinued by Clay Electric if a bad payment record develops or if the account has a returned check. Upon cancellation of the Average Billing plan, the account will be adjusted for any deferred balance or credit.

You may apply for the Average Billing plan by returning the application on the opposite page with your next electric bill payment, by calling Clay Electric or by dropping by your local Clay Electric district office.

I certify that the information above is accurate and grant Clay Electric Cooperative permission to verify information submitted on this application. I understand the Average Billing Plan does not reduce my total usage costs but rather averages out the cost over time. I have read the criteria for participation and acknowledge Clay Electric's right to refuse or discontinue my participation based on that criteria.
