Budget Billing

A payment plan to make
budgeting easier

The Budget Billing Program

The Budget Billing plan is a special fixed payment plan which provides participating members with predictable bills. By knowing the amount of your electric bill each month, budgeting becomes easier.

To qualify for the plan, a member must have a Clay Electric billing history in good standing under his or her name at the current residence for at least 12 months. Budget Billing plan participants will have their meters read monthly and receive monthly bills; however, the amount due will be based on a 12-month average, including any carry over balance (debit or credit) from the previous budget bill calculation. This calculated average will be their budget bill amount for the next six months. Customers will be notified on their April & October bills of their new calculated budget amount for the next six months. Customers will pay the same amount from May through October and November through April. Billing by this formula does not reduce your total cost for electricity, but rather evens out the wide fluctuations caused by any increased seasonal usage.

Participation in the Budget Billing plan may be discontinued at any time by the member, and may be discontinued by Clay Electric if a bad payment record develops or if the account has a returned check. Upon cancellation of the Budget Billing plan, the account will be adjusted for any deferred balance or credit.

You may register for the Budget Billing plan on the MyClayElectric website or mobile app, or by returning the application on the opposite page with your next electric bill payment, by calling Clay Electric or by dropping by your local Clay Electric district office.

Application for Budget Billing

Name

(Please print as it appears on your electric bill.)

Address

City/Zip

Telephone Number

I certify that the information above is accurate and grant Clay Electric Cooperative permission to verify information submitted on this application. I understand the Budget Billing Plan does not reduce my total usage costs, but rather averages out the cost over time. I have read the criteria for participation and acknowledge Clay Electric's right to refuse or discontinue my participation based on that criteria.
